FUND MANAGER'S COMMENTS

In August 2019, the Fund's performance decreased by 0.68%, but outperforming the benchmark by 0.72%.

The FTSE Bursa Malaysia Kuala Lumpur Composite Index ("KLCI") declined 1.4% in Aug (YTD: 4.6%) in tandem with the selloff in global equity markets. Domestically, the underwhelming 2Q19 earnings season and sell-down of GENT and GENM following a RPT proposal also led to the decline in the benchmark index. 2Q19 earnings season was a major disappointment as reflected by further negative earnings revision leading to a much higher earnings contraction of 7.2% in 2019 (vs 4.5% a month ago).

During the month, the MGS yield curve continued to bull flatten with yields moving lower across the curve. The longer end of the curve tightened significantly with the 20- and 30-year tenors moved lower by 44bps and 40bps respectively MoM. The 3-, 5-, 7-, 10-, 15-, 20- and 30-year MGS yields traded 3.17%(-15bps), 3.24%(-20bps), 3.28% (-27bps), 3.32% (-27bps), 3.49% (-32ps), 3.58% (-44bps) and 3.81% (-40bps) respectively at the end of August.
