## FUND MANAGER’S COMMENTS

The Fund delivered 0.13% in the month of March 2022 which was underperforming with the benchmark, and delivered 1.61% in the 12-months period ending 31 March 2022, underperforming the benchmark by 12bps.

BNM kept its OPR unchanged at 1.75% as widely expected in its MPC meeting on 3 March 2022. The official policy statement appears to be neutral suggesting there is no plan for an immediate rate hike. BNM maintained their view that both the global and domestic economy would continue to recover and strengthen in 2022, but highlighted new risk from the ongoing Russia-Ukraine conflict that could tilt the outlook to the downside.

In February, headline CPI moderated to 2.2% YoY as compared to January’s CPI of 2.3% and market consensus of 2.4% amid a slowdown in cost of transport but inflation was unchanged for both alcoholic beverages & tobacco and education. Meanwhile, food prices went up the most since January 2018.

BNM lowered the 2022 GDP slightly to 5.3%-6.3% from the earlier MOF’s forecast of 5.5%-6.5%. Despite risks from higher costs and price pressures, continued Covid 19 uncertainties and ongoing geopolitical tensions, the recovery will be supported by continued expansion in external demand, borders reopening, improvement in labour market conditions, continued access to targeted policy measures.

CPI is forecasted to remain manageable averaging between 2.2% and 3.2% in 2022. High input costs are projected to affect selected fresh food prices but will be partly mitigated by price controls. Meanwhile, core inflation will trend higher between 2.0 and 3.0% in 2022 from the subdued +0.7% last year mainly attributable to stronger demand conditions amid lingering cost pressures.

We limit our investment exposure to short-term deposit placements due to the very low risk nature of the Fund.

## RISKS

<b>Returns not guaranteed</b>	The investment of the fund is subject to market fluctuations and its inherent risk. There is NO GUARANTEE on the investment returns, nor any assurance that the target fund's investment objective will be achieved.
<b>General market environment risk</b>	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the target fund's NAV.
<b>Inflation risk</b>	This is the risk that your investment in the target fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.
<b>Financing risk</b>	This risk occurs when you obtain financing to finance your investment. The inherent risk of investing with money obtained from financing includes you being unable to service the financing payments.
<b>Manager's risk</b>	This risk refers to the day-to-day management of the target fund by Principal which will impact the performance of the target fund, e.g. investment decisions undertaken by Principal as a result of an incorrect view of the market may adversely affect the performance of the target fund.
<b>Reclassification of Shariah non-compliant status risk</b>	This risk refers to the risk that the currently held Shariah-compliant securities in the target fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the Shariah Advisory Council of the Securities Commission Malaysia (SACSC), the Shariah adviser, the Shariah boards of the relevant Islamic indices or the Shariah adviser of the issuer.
<b>Credit and default risk</b>	<p>Investment of the target fund may involve a certain degree of credit and default risk. Generally, credit and default risk is the risk of loss due to the counterparty's and/or issuer's non-payment or untimely payment of the investment amount as well as the returns on investment. Principal aim to mitigate this risk by performing fundamental credit research and analysis to determine the creditworthiness of its counterparty and/or issuer.</p> <p>Investment in the target fund is not the same as placing funds in a Shariah-compliant deposit with a licensed Islamic financial institution. There are risks involved and investors should rely on their own evaluation to assess the merits and risks when investing in the target fund.</p>
