FUND MANAGER'S COMMENTS

The Fund delivered 0.25% in March 2025 which was underperforming the benchmark by 1bps, and delivered 3.19% in the 12-months period ending 31 March 2025, outperforming the benchmark by 11bps.

Bank Negara Malaysia (BNM) maintained the Overnight Policy Rate (OPR) at 3.00% during its Monetary Policy Committee (MPC) meeting in March, whilst remaining constructive on global and domestic growth outlook. The statement also highlighted external and global policy uncertainties, particularly the US trade and tariff policies under the Trump 2.0 administration.

BNM also released its 2024 Annual Report on 24th March and affirmed its growth forecast for 2025 at 4.5 – 5.5% despite acknowledging considerable external uncertainties. While the central bank trimmed its growth outlook for net external demand, they revised the growth outlook for public consumption and investment activities upwards. Meanwhile, they maintained the headline inflation and core inflation forecasts at +2.0 – 3.5%, and +1.5 – 2.5%, for 2025 respectively.

Despite the 13.3% increase in minimum wages w.e.f 1st February, Malaysia's headline inflation rate eased to +1.5% YoY in February (Jan-25: +1.7%), while core inflation edged up to +1.9% YoY (Jan-25: +1.8%).

Malaysia's manufacturing sector conditions remained contraction for the 10th consecutive month in March with the seasonally adjusted manufacturing PMI registering 48.9 (Feb-25: 49.7), as new orders eased the most in a year and production fell. Meanwhile, Malaysia's unemployment rate remained at 3.1% in January (Dec-24: 3.1%).

We limit our investment exposure to short-term deposit placements due to the very low risk nature of the Fund.

RISKS

Returns not guaranteed	The investment of the fund is subject to market fluctuations and its inherent risk. There is NO GUARANTEE on the investment returns, nor any assurance that the target fund's investment objective will be achieved.
General market environment risk	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the target fund's NAV.
Inflation risk	This is the risk that your investment in the target fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.
Financing risk	This risk occurs when you obtain financing to finance your investment. The inherent risk of investing with money obtained from financing includes you being unable to service the financing payments.
Manager's risk	This risk refers to the day-to-day management of the target fund by Principal which will impact the performance of the target fund, e.g. investment decisions undertaken by Principal as a result of an incorrect view of the market may adversely affect the performance of the target fund.
Reclassification of Shariah non-compliant status risk	This risk refers to the risk that the currently held Shariah-compliant securities in the target fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the Shariah Advisory Council of the Securities Commission Malaysia (SACSC), the Shariah adviser, the Shariah boards of the relevant Islamic indices or the Shariah adviser of the issuer.
Credit and default risk	<p>Investment of the target fund may involve a certain degree of credit and default risk. Generally, credit and default risk is the risk of loss due to the counterparty's and/or issuer's non-payment or untimely payment of the investment amount as well as the returns on investment. Principal aim to mitigate this risk by performing fundamental credit research and analysis to determine the creditworthiness of its counterparty and/or issuer.</p> <p>Investment in the target fund is not the same as placing funds in a Shariah-compliant deposit with a licensed Islamic financial institution. There are risks involved and investors should rely on their own evaluation to assess the merits and risks when investing in the target fund.</p>
