CEO's Message

"Making meaningful impacts in our Clients' lives is at the heart of our purpose. At Sun Life Malaysia, we are committed to helping people achieve lifetime financial security and live healthier lives — because true peace of mind starts here."

Dear Valued Client,

Thank you for your continued trust in Sun Life Malaysia. We are pleased to share our 2024 Takaful Investment-Linked Fund (ILP) Performance Report highlighting our strategic achievements, market overview, and societal impacts.

Market Overview

2024 began with a strong global markets momentum, buoyed by the U.S. economic resilience and growing expectations of interest rate cuts. The massive Artificial Intelligence (AI) 'arms race' amongst the hyperscalers has placed the AI revolution at the forefront of investment themes, and this trend shows no signs of slowing down. However, the year was not without its challenges. Geopolitical tensions in the Middle East and the unexpected unwinding of the Japanese Yen carry trade sent shockwaves through global markets.

CEO's Message

(Continued)

Despite these disruptions, declining U.S. inflation and positive economic indicators fuelled optimism for a soft landing. China's commitment to bolstering its monetary and fiscal policies provided a temporary market uplift, though this was offset by increased uncertainties following Donald Trump's U.S. presidential election victory, leading to concerns about escalating trade tariffs and threat of a potential full-blown trade war.

On the monetary policy front, globally, central banks moved towards interest rate normalisation. In the U.S., the Federal Reserve reduced its benchmark rate by 100 basis points, bringing it to a range of 4.25%-4.50% amid signs of disinflation. Similar rate cuts were witnessed in the UK, Eurozone, Canada, Australia, and China. Locally, Bank Negara Malaysia (BNM) maintained the Overnight Policy Rate at 3%, supported by strong economic growth and moderate inflation, which, in turn, bolstered the performance of local markets.

Our ILP funds demonstrated strong performance, with over 30% achieving double-digit returns for the year. The Sun Life Malaysia Growth Fund, focused on domestic markets, led with a 28% gain. Additionally, our Technology Fund also experienced continued exponential growth, reflecting the accelerating adoption of AI, and becoming one of our largest funds.

Key Business Highlights For 2024

As we reflect on the achievements of 2024, I am filled with pride and gratitude for your unwavering trust and support. They have been key to our success, and I appreciate the journey we have shared.

At Sun Life Malaysia, we are more than just your takaful provider – we are your partner in building a brighter, more resilient future. Our commitment to driving financial literacy, championing healthier communities, and fostering sustainable practices has been the driving force behind our continued growth.

Empowering Financial Literacy

We believe financial literacy is the foundation of sustainable financial resilience. Our 2024 'Insure or Unsure: Sun Life Insurance Literacy Survey' revealed that only 28% of Malaysians felt confident in their insurance knowledge, with a concerning 32% lacking any protection. This includes both conventional insurance and Takaful, highlighting a critical gap in financial preparedness. We were determined to change that.

In response, we launched the year-long **InsureLit Campaign** to enhance financial literacy across Malaysia with a spotlight on takaful and insurance literacy. This campaign has been transformative, engaging Malaysians of all ages and

sparked meaningful conversations, through innovative approaches, including:

- **Making Financial Security Accessible:** Our dedication to accessible financial security drove significant product innovation in 2024. We launched Sun Takaful Medicare Extra to provide our Clients with additional protection against escalating medical costs. This groundbreaking takaful rider provides Clients with higher deductible options, allowing them to balance affordability with substantial annual limits. Other key benefits include coverage for outpatient acupuncture and chiropractic treatments, maternity complications and palliative care. Complementing this, we introduced Sun Apex-i, Sun Istismar Extra and Mortgage Reducing Term Takaful for Lembaga Pembiayaan Perumahan Sektor Awam (MRTT LPPSA), providing Clients with robust wealth building and preservation tools.
- **Financial Literacy Board Game and School Outreach Programme:** We developed 'InsureLit: Earn, Save and Protect,' a financial literacy board game, and introduced it to over 1,000 primary students in 8 schools, teaching essential money management skills and with a focus on importance of takaful and insurance.

- **Roadshows and Financial Consultations:** We held experiential roadshows in Johor, Penang, Putrajaya, and Puchong, providing the public with financial literacy awareness and personalised consultations.
- **Educational Resources:** We made financial education resources accessible and easy to understand through articles, podcasts, and videos, across online and offline platforms and furthered the conversation by sponsoring a women's financial empowerment award.

Market Review and 2025 Outlook

Fixed Income

The global economy remained resilient in 2024 as stronger growth in the US offset the weaker economic momentum in Europe and China. Progress in curbing inflation also saw central banks globally initiated their rate cutting cycles.

The US economy experienced strong growth with a 3.1% annualised growth rate in the third quarter supported by healthy consumer spending. This brought the year-to-date average growth to 2.6% (2023: 2.9%). Meanwhile, the US Federal Reserve started its rate cut cycle in September amid signs of disinflation in the first half of 2024, which saw the central bank rate reduced by 1% to 4.25%-4.50% by the end of 2024. However, inflation remained persistent above 2.6% (Fed's target: 2%) in the second half of 2024, which led investors to dial down expectations for further rate cuts in 2025. Meanwhile, Donald Trump's election victory in November 2024 has led to elevated uncertainties as global markets assessed the potential inflationary impact of his trade tariffs and tax cuts policies. As a result, the 10-year US Treasury yield swung between 3.62% and 4.57% throughout the year.

Similarly, the European Central Bank (ECB) cut rates by 100bps in 2024 to support economic growth within the region. However, gross domestic product

growth remained relatively weak, averaging 0.6% year-on-year across the first nine months of 2024. This was compounded by political turmoil in France and Germany, despite inflation staying under control. In light of these conditions, the ECB is anticipated to continue on its rate cut trajectory in 2025 to further boost economic activity.

Meanwhile, the China government continued its focus on bolstering the economy through various stimulus measures, including lower central bank rates, policies supporting the real estate and equity market as well as fiscal stimulus. Despite these efforts, China registered a lower annual growth rate of 5% in 2024 (2023: 5.4%; pre-pandemic: >6%), reflecting tepid domestic demand, subdued property and equity markets, and persistent deflationary pressures. Looking ahead, China is widely expected to unveil further stimulus to navigate a more challenging external environment marked by threats of potential increases in US tariffs.

Locally, the Malaysian economy remained resilient in 2024 with the gross domestic product expanding by 5.1% (2023: 3.6%, Ministry of Finance estimates: 4.8%-5.3%), driven by robust domestic demand and a rebound in exports activity. Furthermore, strong investment approvals and the progress of ongoing multi-year projects in both the private and public

Market Review and 2025 Outlook

(Continued)

sectors provided additional impetus to investment growth. For 2025, Bank Negara Malaysia (BNM) has forecasted the economy to expand between 4.5% and 5.5%, supported by continued domestic spending despite a challenging global environment. Policy measures such as increases in the minimum wage and civil servant salaries are expected to underpin household spending, while investment activities will be driven by progress of multi-year projects along with the continued realisation of approved investments. Inflation is anticipated to come in higher at 2.0 – 3.5% due to the removal of fuel subsidies, among other factors, but is expected to remain manageable. Hence, BNM is projected to maintain the Overnight Policy Rate at 3% throughout 2025.

Meanwhile, the Malaysian fixed income market remained stable in 2024, with the 10-year Malaysian Government Securities (MGS) yield fluctuating a milder pace between 3.69% and 4.00%, as compared to the 10-year US Treasury yield. This is largely attributed to strong local institution demand outpacing the supply of fixed income instruments. Looking ahead to 2025, we anticipate financial markets to be volatile due to the uncertainties surrounding President Trump's economic policies, as evidenced by the movements seen in the 10-year US Treasury yields in early 2025, between 4.15% and 4.79%. Nevertheless, Malaysia's

fixed income market is expected to remain firm on the back of stable monetary policy, strong institutional demand and ample liquidity.

Equity

2024 was a stellar year for global equity markets, which surged to new highs, buoyed by central banks' easing monetary policies. The "Magnificent 7" tech giants once again dominated market performance, achieving significant gains, largely fueled by the burgeoning Artificial Intelligence (AI) sector.

Global markets kicked off the year with impressive momentum, recording strong gains in the first quarter. The resilient US economy and continued optimism surrounding AI drove investor sentiment, while expectations of interest rate cuts from central banks worldwide further boosted market performance. However, despite a mild rally, Chinese stocks closed the quarter slightly lower, as foreign investors remained cautious due to concerns about the Chinese economy and fears of a prolonged slowdown. In the second quarter, emerging markets outperformed developed markets as the ECB cut interest rates, but persistent inflation kept other major central banks on hold. Concerns over an overheating US economy eased as hopes of a soft landing grew during the quarter while a rebound in the Chinese equities market, coupled with

Market Review and 2025 Outlook

(Continued)

growth in technology and AI-related sectors in Asia, bolstered the performance of emerging markets.

The third quarter was marked by volatility, driven by the unwinding of the yen carry trade and weak US economic data. A weaker jobs report sparked fears that the Fed may have delayed interest rate cut, risking economic damage, as markets began to price in significant monetary policy easing by year-end. The Fed's 50 basis point rate cut, along with a 25 basis point cut by the ECB in September, and a series of stimulus measures from China, helped to reverse the negative sentiment, driving markets higher as the quarter drew to a close.

The final quarter started off slowly, due to uncertainties surrounding the US presidential elections, but gained momentum later. Investor sentiment improved following Donald Trump's victory, as expectations grew that his policies would stimulate growth, reduce taxes, and cut regulations. The Fed implemented two 25 basis point rate cuts in November and December, but markets responded negatively when it scaled back the number of anticipated rate cuts for 2025, citing persistently high inflation. Eurozone equities declined during this period, as recession fears mounted, while emerging markets also fell, largely due to concerns over Trump's proposed tariffs.

On the domestic front, the benchmark FTSE Bursa Malaysia Kuala Lumpur Composite Index (FBMKLCI) made a strong start to the year, underpinned by positive investor sentiment and expectations for robust economic recovery. Improving political stability attracted foreign investors, providing further support for the market. Despite heightened tensions in the Middle East, local markets remained resilient, with institutional investors backing the market, buoyed by solid GDP growth and large corporate exercises. However, markets briefly stumbled toward the end of the first half when the government unexpectedly removed the blanket diesel subsidy, catching markets off guard.

The start of the second half mirrored the first, with investor sentiment largely driven by positive developments surrounding Malaysia's negotiations with Singapore over the Special Economic Zone. Bank Negara Malaysia's decision to maintain interest rates, amid resilient economic growth and manageable inflation, further supported market sentiment. The unwinding of the Yen carry trade spooked markets albeit temporarily as the index rallied following positive quarter two corporate results as well as notable appreciation of the Ringgit. As the US presidential election neared, investors took profits in response to the uncertainty surrounding the outcome.

Market Review and 2025 Outlook

(Continued)

Once Trump secured his second term, concerns quickly shifted over to potential trade tariff escalations and that damped market sentiment further. At the cusp of year-end, window dressing activities helped propel the market higher. The FBMKLCI ended the year with a strong annual rally, marking its best performance in nearly 14 years, posting a gain of 12.9%. This surge was driven by favorable political stability, ongoing economic reforms, robust GDP growth, and higher foreign direct investment inflows.

As we move into 2025, we anticipate higher volatility across the board, largely driven by the unpredictable nature of President Trump and his policies. The International Monetary Fund (IMF) projects global growth at 3.3% for 2025, slightly higher than the 3.2% forecast for 2024, with upward revisions in the US contributing to this boost. However, despite the higher growth outlook, challenges remain. Renewed inflationary pressures could disrupt the ongoing monetary easing cycle, although easing geopolitical tensions in the Middle East and between Russia and Ukraine are positive developments for markets, potentially alleviating inflationary pressures.

Locally, Bank Negara Malaysia expects Malaysia's economy to expand by 4.8%-5.3% in 2025 (compared to 5.1% in 2024) supported by strong investment activities,

resilient household spending, and an expansion in exports, all underpinned by Malaysia's robust economic fundamentals. Domestic investment will be bolstered by the favorable progress of multi-year projects, including key national initiatives like the New Industrial Master Plan, National Energy Transition Roadmap, and National Semiconductor Strategy. With Bank Negara Malaysia expected to hold rates steady, the upward revision of minimum wages and civil servants salaries is expected to further drive domestic consumption, while tourist arrivals are anticipated to improve further in the lead up to "Visit Malaysia" year in 2026.

On the earnings front, consensus expects slight growth in 2025. However, the real test will come with the roll-out of the targeted fuel subsidy model in mid-year, which markets will closely watch to assess its impact on inflation and consumer sentiment. Against this backdrop, we remain positive on the domestic fixed-income market, while cautiously optimistic on the local equities market. With foreign shareholdings hovering near multi-year lows, downside risk should be capped, while any significant downturns in either market may present opportunities to invest at attractive discounts, as Malaysia's long-term fundamentals remain solid.

Our auditors' report is made solely to the Manager and unitholders of the Funds, for the purpose of meeting the requirements as stipulated in the Policy

Document issued by BNM and for no other purpose. We do not assume responsibility to any other person for the content of this report. Our opinion is not modified in respect of this matter.

Independence and other ethical responsibilities

We are independent of the Funds in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information other than the financial information and auditors' report thereon

Sun Life Malaysia Takaful Berhad (the "Manager") is responsible for the other information. The other information comprises the information included in the annual report of the Funds, but does not include the financial statements of the Funds and our auditors' report thereon.

Our opinion on the financial statements of the Funds does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Funds, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Funds or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors of the Manager and the Manager for the financial statements

The Manager is responsible for the preparation of financial statements of the Funds that give a true and fair view in accordance with the Funds' Accounting Policies as described in Note 3 to the financial statements. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Funds that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Funds, the Manager is responsible for assessing the Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going

concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Funds or to cease operations, or have no realistic alternative but to do so.

The directors of the Manager are responsible for overseeing the Funds' financial reporting process. The directors of the Manager are also responsible for ensuring that the Manager maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Funds as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Funds, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Manager's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going

concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Funds or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Funds to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements of the Funds, including the disclosures, and whether the financial statements of the Funds represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Ulasan Pasaran

2024 bermula dengan momentum pasaran global yang kukuh, dimangkin oleh ketahanan ekonomi A.S. dan peningkatan jangkaan akan berlaku pemotongan kadar faedah. “Perlumbaan” besar tentang Kecerdasan Buatan (AI) di kalangan syarikat teknologi terkemuka telah meletakkan revolusi AI sebagai tema pelaburan utama, dan trend ini masih cergas diperkatakan. Bagaimana pun, tahun ini masih ada cabaran yang perlu dihadapi. Ketegangan geopolitik di Timur

Perutusan Ketua Pegawai Eksekutif (Sambungan)

Tengah dan pelonggaran dagangan bawaan Yen Jepun yang tidak dijangka telah menjadi kejutan di pasaran global.

Walaupun berdepan gangguan, pengurangan inflasi A.S dan petunjuk ekonomi yang positif telah memangkin keyakinan untuk kejatuhan yang tipis. Komitmen China untuk merangsang dasar-dasar moniteri dan fiskalnya telah menyediakan kenaikan sementara dalam pasaran, namun ia telah digugat oleh peningkatan ketidakpastian berikutnya kejayaan Donald Trump dalam pilihan raya A.S, sekaligus melonjakkan kebimbangan mengenai pertambahan tarif dagangan dan ancaman akan berlaku perang dagangan besar-besaran.

Dari sudut dasar monetari, bank pusat global bergerak ke arah normalisasi kadar faedah. Di A.S., *Federal Reserve* mengurangkan kadar penanda arasnya sebanyak 100 mata asas, meletakkannya dalam julat 4.25%-4.50% dengan tandanya akan berlaku disinflasi. Pemotongan kadar yang sama turut berlaku di UK, Eropah, Kanada, Australia, dan China. Dalam negara pula, Bank Negara Malaysia (BNM) mengekalkan Kadar Dasar Semalam pada 3%, disokong oleh pertumbuhan ekonomi yang kukuh dan inflasi sederhana, sekaligus meningkatkan prestasi pasaran tempatan.

Dana *ILP* kami mencatatkan prestasi yang baik, di mana 22% daripadanya mencapai pulangan dua angka untuk tahun ini. Dana Sun Life Malaysia Islamic Global Sustainable, yang memberi tumpuan kepada kelestarian menerajui pencapaian dengan keuntungan 15% manakala Dana Sun Life Malaysia Islamic Equity yang memberi tumpuan kepada pasaran tempatan pula berada di kedudukan kedua dengan keuntungan 14%.

Perutusan Ketua Pegawai Eksekutif (Sambungan)

Memperkasakan Literasi Kewangan

Kami percaya literasi kewangan adalah asas yang membentuk daya tahan kewangan yang lestari. 'Insure or Unsure: Sun Life Insurance/Takaful Literacy Survey (Insurans atau Tidak: Tinjauan Literasi Insurans/Takaful Sun Life) 2024' yang kami telah jalankan mendedahkan bahawa hanya 28% rakyat Malaysia berasa yakin dengan pengetahuan insurans mereka, manakala 32% pula tidak mempunyai sebarang perlindungan. Ini termasuk insurans konvensional dan Takaful, yang menjelaskan tentang jurang kritikal dalam kesediaan kewangan. Kami bertekad untuk mengubahnya.

Bertindak atas data ini, kami melancarkan **Kempen InsureLit** sepanjang tahun untuk meningkatkan literasi kewangan di seluruh Malaysia dengan tumpuan tentang literasi takaful dan insurans. Kempen ini membawa transformasi, melibatkan rakyat Malaysia dari semua peringkat umur dan mencetuskan perbincangan yang mendalam dan bermakna, melalui pendekatan yang inovatif, termasuk:

- **Menjadikan Jaminan Kewangan Mudah Diperolehi:** Dedikasi kami untuk menjadikan jaminan kewangan mudah diperolehi telah menghasilkan inovasi produk yang penting pada tahun 2024. Kami melancarkan Sun Takaful Medicare Extra untuk

menyediakan kepada Pelanggan kami perlindungan tambahan terhadap peningkatan kos perubatan. Rider Takaful terulung ini menyediakan pilihan deduktibel yang lebih tinggi kepada Pelanggan, membolehkan mereka mengimbangi kemampuan dengan had tahunan yang besar. Manfaat utama lain termasuk perlindungan untuk rawatan akupunktur dan rawatan kiropraktik pesakit luar, komplikasi bersalin dan penjagaan paliatif. Melengkapinya, kami memperkenalkan pula Sun Apex-i Sun Istismar Extra dan Takaful Tempoh Pengurangan Gadai Janji untuk Lembaga Pembiayaan Perumahan Sektor Awam (MRTT LPPSA), menyediakan Pelanggan dengan cara terbaik untuk pemeliharaan dan pembinaan kekayaan yang cergas dan teguh.

- **Permainan Papan Literasi Kewangan Dan Program Santunan Sekolah:** Kami telah membangunkan 'InsureLit: Peroleh, Simpan dan Lindungi,' sebuah permainan papan literasi kewangan, dan memperkenalkannya kepada lebih dari 1,000 pelajar sekolah rendah di 8 buah sekolah, mendidik tentang kemahiran penting pengurusan wang dan dengan tumpuan mengenai kepentingan takaful dan insurans.

Perutusan Ketua Pegawai Eksekutif (Sambungan)

- **Jerayawara dan Konsultasi Kewangan:** Kami mengadakan jerayawara berasaskan pengalaman di Johor, Pulau Pinang, Putrajaya, dan Puchong, menyediakan kesedaran literasi kewangan dan konsultasi peribadi kepada orang awam.
- **Sumber Pendidikan:** Kami telah menjadikan sumber pendidikan kewangan senang diperolehi dan mudah difahami melalui artikel, podcast (media digital), dan video, merentasi pelbagai platform atas talian dan luar talian dan meneruskan tindakan ini dengan menaja anugerah pemerkasaan kewangan wanita.
- Menyediakan lebih 5,100 saringan diabetes dan 530 sesi pelatihan kesihatan, serta mengedarkan 5,000 kit ujian kendiri dan menawarkan saringan percuma kepada 300 individu kurang bernasih baik.
- Menanam 1,000 pokok melalui projek “*PlantTreePlantHope*” yang dipacu oleh kakitangan kami, kini telah memasuki tahun ketiga.
- Menganjurkan ‘*Sun in the City*,’ festival kesejahteraan yang menyepadukan kesihatan kewangan dengan kesejahteraan mental dan fizikal yang telah menarik pendaftaran 350 peserta.

Membina Komuniti Yang Lebih Sihat Dan Lestari

Membina komuniti yang lebih sihat kekal menjadi keutamaan kami. Pada 2024, kami telah memperluaskan Program Filantropi Korporat “Brighter You” untuk menangani keperluan kritikal komuniti, melibatkan lebih 15,000 individu.

Inisiatif utama termasuk:

- Penglibatan lebih 1,000 pelajar berumur 9 hingga 11 tahun dalam literasi kewangan melalui papan permainan interaktif dan bengkel.

Impak Yang Menerima Pengiktirafan

Usaha kami memberi impak yang besar. Pada tahun 2024, kami berbesar hati menerima beberapa anugerah berprestij yang mengiktiraf komitmen kami dalam menghasilkan perkhidmatan dan kualiti yang cemerlang bagi kedua-dua perniagaan Takaful dan insurans kami. Pencapaian terhebat adalah memenangi Anugerah Emas di Anugerah Putra Aria - penghargaan yang ditentukan sepenuhnya oleh undian pengguna. Ia menandakan perkembangan ketara berbanding anugerah gangsa yang kami terima pada tahun sebelumnya, menyerlahkan kepercayaan dan keyakinan yang semakin

meningkat tentang jenama kami dari para Pelanggan kami.

Ulasan Pasaran dan Unjuran 2025

Pendapatan Tetap

Ekonomi global masih berdaya tahan pada 2024 apabila pertumbuhan lebih kukuh di AS berjaya mengimbangi kelemahan momentum ekonomi di Eropah dan China. Perkembangan dari sudut inflasi juga menyaksikan bank-bank pusat global memulakan kitaran pemotongan kadar mereka.

Ekonomi AS mengalami pertumbuhan kukuh dengan kadar pertumbuhan ditahunkan 3.1% pada suku ketiga, disokong oleh perbelanjaan pengguna yang cergas. Ia menjadikan pertumbuhan purata tahun-ke-tarikh kepada 2.6% (2023: 2.9%). Sementara itu, *Federal Reserve* AS memulakan kitaran pemotongan kadarnya pada bulan September dengan petanda disinflasi pada separuh pertama 2024 yang menyaksikan kadar bank pusat berkurangan sebanyak 1% kepada 4.25%-4.50% pada akhir 2024. Bagaimana pun, inflasi masih kekal di atas 2.6% (Sasaran Fed: 2%) pada separuh kedua 2024, yang menyebabkan pelabur mengurangkan jangkaan mereka mengenai pemotongan selanjutnya pada 2025. Sementara itu, kejayaan pilihan raya Donald Trump pada November 2024 telah meningkatkan ketidakpastian apabila pasaran global menilai impak inflasi akibat dasar-dasar Trump mengenai tarif dagangan dan pemotongan cukai. Akibatnya, pulangan

Perbendaharaan AS 10-tahun bergerak antara 3.62% dan 4.57% sepanjang tahun.

Bank Pusat Eropah (*ECB*) juga telah memotong kadar sebanyak 100bps pada 2024 untuk menyokong pertumbuhan ekonomi di rantau tersebut. Bagaimana pun, pertumbuhan keluaran dalam negara kasar secara relatifnya kekal lemah, dengan purata 0.6% tahun-ke-tahun sepanjang sembilan bulan pertama 2024. Keadaan ini diburukkan lagi oleh kegawatan politik di Perancis dan Jerman, walaupun inflasi kekal terkawal. Berdasarkan keadaan di atas, *ECB* dijangka mengekalkan langkah pemotongan kadarnya pada 2025 untuk meningkatkan aktiviti ekonomi.

Sementara itu, kerajaan China terus menumpukan usaha untuk memperkuuh ekonominya melalui pelaksanaan pelbagai langkah rangsangan, termasuk merendahkan kadar bank pusat, dasar-dasar untuk menyokong pasaran hartaanah dan ekuiti serta rangsangan fiskal. Di sebalik usaha tersebut, China mencatatkan kadar pertumbuhan tahunan yang lebih rendah sebanyak 5% pada 2024 (2023: 5.4%; pra-pandemik: >6%), mencerminkan permintaan domestik yang suram, pasaran hartaanah dan ekuiti yang lemah, serta tekanan deflasi yang berterusan. Melangkah ke hadapan, China dijangka akan memperkenalkan rangsangan seterusnya untuk menangani

Ulasan Pasaran dan Unjuran 2025

(Sambungan)

persekitaran luaran yang lebih mencabar yang disebabkan oleh ancaman potensi tarif AS yang lebih tinggi.

Di dalam negara, ekonomi Malaysia kekal berdaya tahan pada 2024 dengan keluaran dalam negara kasar berkembang sebanyak 5.1% (2023: 3.6%, anggaran MOF: 4.8%-5.3%), dipacu oleh permintaan domestik yang cergas dan pemulihan dalam aktiviti eksport. Tambahan pula, kelulusan pelaburan yang kukuh dan kemajuan projek berbilang tahun oleh kedua-dua sektor swasta dan awam telah menyediakan dorongan tambahan kepada pertumbuhan pelaburan. Bagi 2025, Bank Negara Malaysia (BNM) meramalkan bahawa ekonomi akan berkembang antara 4.5% dan 5.5%, disokong oleh perbelanjaan domestik yang berterusan walaupun berhadapan dengan persekitaran global yang mencabar. Langkah-langkah dasar seperti peningkatan gaji minimum dan gaji penjawat awam dijangka menyediakan sokongan untuk perbelanjaan isi rumah, manakala aktiviti pelaburan akan dipacu oleh kemajuan dalam projek berbilang tahun serta kelulusan pelaburan yang semakin banyak direalisasikan. Inflasi dijangka meningkat lebih tinggi pada 2.0-3.5% disebabkan oleh pemansuhan subsidi bahan api, tetapi masih terkawal. Justeru itu, BNM dilihat mengekalkan Kadar Dasar Semalam pada 3% untuk 2025.

Sementara itu, pasaran pendapatan tetap Malaysia kekal stabil pada 2024 di mana pulangan Sekuriti Kerajaan Malaysia (MGS) 10-tahun bergerak sederhana sekitar 3.69% dan 4%, berbanding pulangan Perbendaharaan AS 10-tahun. Ini sebahagian besarnya disebabkan oleh permintaan luar biasa institusi tempatan yang mengatasi bekalan instrumen pendapatan tetap. Untuk 2025, kami menjangkakan pasaran kewangan akan menjadi tidak menentu memandangkan terdapat ketidaktentuan yang menyelubungi dasar ekonomi Presiden Trump, dibuktikan oleh pergerakan pulangan Perbendaharaan AS 10-tahun pada awal 2025, yang dicatatkan antara 4.15% dan 4.79%. Bagaimana pun, pasaran pendapatan tetap Malaysia dijangka kekal teguh bersandarkan dasar monetari yang stabil, permintaan institusi yang kukuh dan kecairan yang mencukupi.

Ekuiti

2024 merupakan tahun yang cemerlang untuk pasaran ekuiti global, di mana ia melonjak ke paras tertinggi baharu, ditunjang oleh pelonggaran dasar monetari oleh bank-bank pusat. Gergasi teknologi "Magnificent 7" sekali lagi mendominasi prestasi pasaran, mencapai keuntungan besar, didorong terutamanya oleh sektor Kepintaran Buatan (AI) yang pesat berkembang.

Ulasan Pasaran dan Unjuran 2025

(Sambungan)

Pasaran global memulakan tahun dengan momentum yang mengagumkan, mencatatkan keuntungan kukuh pada suku pertama. Ekonomi AS yang berdaya tahan dan keyakinan berterusan mengenai AI telah memangkin sentimen pelabur, manakala jangkaan pemotongan kadar faedah oleh bank pusat di seluruh dunia meningkatkan lagi prestasi pasaran. Namun begitu, walaupun berlaku lonjakan sederhana, saham China menutup suku sedikit rendah, apabila pelabur asing kekal berwaspada berikutan kebimbangan mengenai ekonomi China dan kerisauan tentang keperlahan yang berpanjangan. Pada suku kedua, pasaran membangun mengatasi pasaran maju apabila ECB memotong kadar faedah, tetapi inflasi yang tidak menentu telah menyebabkan bank pusat utama lain menangguhkannya. Kebimbangan terhadap ekonomi AS yang terlalu meruap mula reda apabila meningkatnya harapan akan berlaku kejatuhan kecil pada suku tersebut manakala pemulihan dalam pasaran ekuiti China digabungkan dengan pertumbuhan dalam teknologi dan sektor berkaitan AI di Asia turut menggalakkan peningkatan prestasi pasaran membangun.

Suku ketiga terjebak dalam pergelakan, didorong oleh kelonggaran dagangan berasaskan yen dan data ekonomi AS yang lemah. Laporan pekerjaan yang lebih lemah mencetuskan kebimbangan bahawa Fed mungkin melewatkam-

pemotongan kadar faedah, berisiko untuk menjelaskan ekonomi apabila pasaran mula mengambil kira pelonggaran besar dasar monetari menjelang akhir tahun. Pemotongan kadar 50 mata asas oleh Fed, serta pemotongan 25 mata asas oleh ECB pada bulan September, dan satu siri langkah rangsangan dari China, telah membantu memulihkan sentimen negatif, memacu pasaran lebih tinggi apabila suku tersebut mengakhir penghujungnya.

Suku terakhir bermula agak perlahan disebabkan oleh ketidaktentuan mengenai pilihan raya presiden AS tetapi kemudianya mula mendapat momentum. Sentimen pelabur bertambah baik selepas kemenangan Donald Trump, apabila jangkaan meningkat bahawa dasar-dasar beliau akan merangsang pertumbuhan, mengurangkan cukai dan melonggarkan peraturan. Fed melaksanakan dua pemotongan kadar 25 mata asas pada bulan November dan Disember, tetapi pasaran memberi tindak balas negatif apabila bilangan pemotongan kadar yang dijangkakan untuk 2025 telah dikecilkkan, memetik kadar inflasi yang sentiasa tinggi. Ekuiti zon Euro merosot dalam tempoh ini, apabila kegusaran mengenai kemelesetan terus meningkat, manakala pasaran membangun juga turut mengalami kejatuhan, sebahagian besarnya berpunca dari kebimbangan tentang cadangan tarif oleh Trump.

Ulasan Pasaran dan Unjuran 2025

(Sambungan)

Dalam negara pula, penanda aras Indeks Komposit FTSE Bursa Malaysia Kuala Lumpur (*FBMKLCI*) bermula agak kukuh pada awal tahun, ditunjang oleh sentimen pelabur yang positif dan jangkaan akan berlaku pemulihan ekonomi yang cergas. Kestabilan politik yang lebih baik telah menarik minat pelabur asing, memberikan sokongan lebih kukuh kepada pasaran. Walaupun ketegangan di Timur Tengah semakin meningkat, pasaran tempatan kekal berdaya tahan dengan adanya sokongan pelabur institusi dalam pasaran, dirangsang oleh pertumbuhan KDNK yang kukuh dan pelaksanaan aktiviti korporat yang besar. Walau bagaimanapun, pasaran sedikit tergendala menjelang penghujung separuh pertama apabila kerajaan menamatkan subsidi diesel menyeluruh tanpa disangka, sekaligus memberi kejutan kepada pasaran.

Permulaan separuh kedua menuruti yang pertama, dengan sentimen pelabur sebahagian besarnya didorong oleh perkembangan positif rundingan Malaysia dan Singapura mengenai Zon Ekonomi Khas. Keputusan Bank Negara Malaysia untuk mengekalkan kadar faedah, dalam keadaan pertumbuhan ekonomi yang berdaya tahan dan inflasi yang terurus, terus menyokong sentimen pasaran. Pelonggaran dagangan berdasarkan Yen menimbulkan membimbangkan pasaran buat seketika, namun indeks kembali meningkat susulan keputusan korporat

yang positif pada suku kedua serta peningkatan ketara nilai Ringgit. Di saat pilihan raya presiden AS semakin hampir, pelabur mengambil keuntungan sebagai tindak balas kepada ketidaktentuan yang menyelubungi keputusan pilihan raya tersebut. Apabila Trump berjaya memenangi penggal kedua, keimbangan dengan pantas beralih kepada potensi tarif perdagangan akan dipercepatkan dan ia telah melemahkan lagi sentimen pasaran. Pada akhir tahun, aktiviti hiasan luaran membantu melonjakkan pasaran menjadi lebih tinggi. *FBMKLCI* mengakhiri tahun dengan lonjakan tahunan yang kukuh, merekodkan prestasi terbaiknya dalam tempoh hampir 14 tahun, mencatatkan keuntungan sebanyak 12.9%. Kenaikan ini didorong oleh kestabilan politik yang menggalakkan, pembaharuan ekonomi yang berterusan, pertumbuhan KDNK yang kukuh dan aliran masuk pelaburan langsung asing yang lebih tinggi.

Melangkah ke tahun 2025, kami menjangka pergelakan akan berlaku di seluruh rantau, sebahagian besarnya didorong oleh sikap dan dasar-dasar Presiden Trump yang sukar diramal. *International Monetary Fund (IMF)* mengunjurkan pertumbuhan global pada 3.3% untuk 2025, tinggi sedikit daripada ramalan 3.2% untuk 2024, dengan semakan menaik di AS menyumbang kepada peningkatan ini. Namun begitu,

Ulasan Pasaran dan Unjuran 2025

(Sambungan)

walaupun unjuran pertumbuhan adalah lebih tinggi, cabarannya masih ada. Tekanan inflasi yang wujud boleh mengganggu kitaran pelonggaran monetari yang sedang berjalan walaupun ketegangan geopolitik di Timur Tengah dan antara Rusia dan Ukraine yang semakin reda menyuntik perkembangan positif kepada pasaran, sekaligus berpotensi untuk mengurangkan tekanan inflasi.

Dalam negara pula, Bank Negara Malaysia menjangkakan ekonomi Malaysia akan berkembang sebanyak 4.8%-5.3% pada 2025 (berbanding 5.1% pada 2024), disokong oleh aktiviti pelaburan yang cergas, perbelanjaan isi rumah yang berdaya tahan, dan pengembangan eksport, semuanya ditunjang oleh asas ekonomi Malaysia yang cergas. Pelaburan domestik akan diperkuuhkan oleh kemajuan menggalakkan bagi projek berbilang tahun, termasuk inisiatif utama negara seperti Pelan Induk Perindustrian Baharu, Pelan Hala Tuju Peralihan Tenaga Kebangsaan dan Strategi Semikonduktor Kebangsaan. Dengan BNM dijangka mengekalkan kadar yang stabil, semakan ke atas gaji minimum dan gaji kakitangan awam dijangka akan memacu penggunaan domestik dengan lebih baik manakala ketibaan pelancong pula dijangka akan meningkat menjelang tahun "Melawat Malaysia" pada 2026.

Dari segi pendapatan, konsensus menjangka akan berlaku sedikit pertumbuhan pada 2025. Bagaimanapun, ujian sebenar akan dirasai selepas pelancaran model subsidi bahan api bersasar pada pertengahan tahun, yang dipantau dengan teliti oleh pasaran bagi menilai kesannya terhadap inflasi dan sentimen pengguna. Berlatarkan situasi ini, kami kekal positif untuk pasaran pendapatan tetap tempatan, manakala optimistik berwaspada untuk pasaran ekuiti tempatan. Dengan pegangan saham asing berlegar menghampiri paras terendah berbilang tahun, risiko penurunan harus dihadkan manakala sebarang kemerosotan ketara dalam mana-mana pasaran mungkin menyediakan peluang untuk melabur pada diskaun yang menarik memandangkan asas jangka panjang Malaysia kekal kukuh.
